**Mostar, 21.07.2010**

Pursuant to Article 14, Article 15 and Article 50 of the Electricity Law (*Official Gazette* of FBiH, Nos. 41/02, 24/05, 38/05 and 61/09), Article 12, paragraph 1 and Article 14, paragraph 1 of the Statute of the Regulatory Commission for Electricity of Federation BiH (*Official Gazette* of FBiH No. 13/04) and Article 31, Article 37 paragraph 3 and Article 58 of the Procedural Rules of the Regulatory Commission for Electricity of Federation BiH (*Official Gazette* of FBiH, No. 59/04), and Articles 40-52, Article 56 and Article 71 of the Rule on Tariff Methodology and Tariff Proceedings (*Official Gazette* FBiH, No. 45/05), Decisions of State Electricity Regulatory Commission – SERC No. 04-28-5-367-42/09, No. 04-28-5-348-78/09 and No. 04-28-5-348-79/09 dated 27.04.2010 (*Official Gazette*, No. 28/10) and the rulings of the Regulatory Commission for Electricity of Federation BiH No. 07-02-1592-82/25/09 dated 21.07.2010, 07-02-1593-73/26/09 dated 21.07.2010 and 01-07-1311-91/09 dated 21.07.2010, Regulatory Commission for Electricity of Federation BiH (FERK) on its IX Regular Session held on 21.07.2010 made the following

## **DECISION**

### **on tariffs for sales of electricity to non-eligible (tariff) customers of Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar**

#### **Article 1**

With this decision the tariff rates for electricity sales are determined for non-eligible (tariff) of Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar.

#### **Article 2**

- (1) Tariff rates for non-eligible (tariff) customers by categories and groups of consumption are determined depending on costs of generation, procurement (including settlement), distribution and supply of electricity, and costs of transmission and ISO operation including covering secondary and tertiary regulation (in accordance with SERC decisions No. 04-28-5-367-42/09, No. 04-28-5-348-78/09 and No. 04-28-5-348-79/09 dated 27.04.2010) that these categories create with their manner and time of usage of electricity, taking into account the principle of gradualism in changes.
- (2) Tariff rates for sales of electricity to non-eligible (tariff) customers of Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar. with application from August 1<sup>st</sup>, 2010 are the following:

TARIFF RATES FOR NON-ELIGIBLE (TARIFF) CUSTOMERS

| TARIFNI STAVOVI ZA NEKVALIFICIRANE (TARIFNE) KUPCE |                |          |        |  |               |       |       |             |              |                  |              |               |                |

### Article 3

The tariff rates, from above Article 2 of this decision, do not include the amount of value added tax which Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar shall specially register it on each individual customer's bill.

### Article 4

- (1) The higher season lasts from 01.01 until 28/29.02 and from 01.11 to 31.12.
- (2) The lower season lasts from 01.03 to 31.10.
- (3) Higher daily tariffs are applied from 7 am to 1 pm and from 4 pm to 10 pm, during winter time.
- (4) Lower daily tariffs are applied from midnight to 7 am, from 1 pm to 4 pm and from 10 pm to midnight during winter time, and on Sundays.
- (5) Higher daily tariffs are applied from 8 am to 2 pm and from 5 pm to 11 pm during summer time.
- (6) Lower daily tariffs are applied from midnight to 8 am, from 2 pm to 5 pm and from 11 pm to midnight during summer time, and on Sundays.
- (7) The ratio between higher and lower seasons is 1.3:1, by tariff elements active energy and billing capacity, while the ratio between higher and lower daily tariffs is 2:1 by tariff element active energy.

### Article 5

- (1) Categories of consumption are the following:
- customers that take electricity on 110 kV and higher
  - customers that take electricity on 35 kV
  - customers that take electricity on 10 (20) kV
  - households that take electricity on 0.4 kV
  - commercials that take electricity on 0.4 kV and
  - public lightning that takes electricity on 0.4 kV

### Article 6

The customers that take electricity on 110 kV and higher, 35 kV voltage and 10(20) kV voltage, are billed for metered active energy, peak capacity metered in the period of appliance of higher daily tariffs (billing demand), over –accepted reactive energy and monthly fee for customer’s metering place.

### Article 7

- (1) Groups in the category of households are the following:
- I tariff group, customers that have single-tariff or two-tariff meter without timer or any other devices for registering the tariffs.
  - II tariff group, customers that have two-tariff meter with timer or any other device for registering the tariffs.
- (2) The customers of I and II tariff group from this Article are billed for measured active energy, 1 kW of billing capacity and monthly fee for customer’s metering place.

### Article 8

- (1) Groups in the category of commercials are the following:
- I tariff group, customers that are connected on 0.4 kV that are not households or public lightning, have peak load from electric power permit or realization from the previous period, more or equal to 30 kW and cannot switch to other tariff group,
  - II tariff group, customers that are connected on 0.4 kV that are not households or public lightning, have peak load from electric power permit or realization from the previous period, less than 30 kW and have two-tariff meter with timer of any other device for registering the tariffs.
  - III tariff group, customers that are connected on 0.4 kV that are not households or public lightning, have peak load from electric power permit or realization from the previous period, less than 30 kW and have single-tariff or two tariff meter without timer of any other device for registering the tariffs

- (2) If neither Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar nor end customer have the copy of the issued electric power permit, than the realization of the peak load from the previous period determines the belonging to the certain group in the category of commercials.
- (3) The customers of I tariff group are billed for measured active energy, billing peak capacity in the period of appliance of higher daily tariffs (billing demand), over – accepted reactive energy and monthly fee for customer’s metering place.
- (4) The customers of II and III tariff group from this Article are billed for measured active energy, 1 kW of billing capacity and monthly fee for customer’s metering place.

#### Article 9

Customers from category – public lightning are billed for measured active energy, 1 kW of billing capacity and monthly fee for customer’s metering place.

#### Article 10

Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar shall publish these tariff rates and make them available to all non-eligible (tariff) customers.

#### Article 11

- (1) Tariff rates prescribed with FERK Decision on Tariff rates for sales of electricity to non-eligible (tariff) customers of Javno poduzeće „Elektroprivreda Hrvatske zajednice Herceg Bosne“ dioničko društvo Mostar dated January 29<sup>th</sup>, 2008 (Official Gazette No. 6/08) are cease to be in effect on July 31<sup>st</sup>, 2010.
- (2) This decision comes into force on the date of its signing and is published on the bulletin board and web site of FERK and the disposition thereof in the Official Gazette of FBiH.
